Employment

Intern   May 2021 - May 2021
LUMILEDS, YICHANG

I have interned at this company for over three weeks, with the goal of learning how to maintain LED production machines on the production line. I have learned a lot, particularly about configuring these machines. I analyze problems and collaborate with the team to develop solutions. I report to my mentor, take on daily tasks and responsibilities. I communicate effectively with faculty and staff and welcome criticism and suggestions for improvement.

After graduating from high school, I   Jun 2018 - Jun 2019
worked as an IT Technical Support intern
MTN-CONGO, Pointe-Noire

As an IT Technical Support intern, my responsibilities included:

1. Activating customer accounts for those interested in using new services.
2. Collaborating with suppliers to resolve service, equipment, or inventory issues.
3. Installing application software and performing upgrades, virus protection, and driver installations.
4. Troubleshooting internet, wireless, and wired network access problems.
